## Dear Ready Kilowatt

Dear Ready,

Where's your column this month?

E Challenged in North Hampton.

Dear E,

While I've enjoyed your questions, it's time to move on. I've taken a job with the Acme Flux Capacitor Inc. Dr Emmet Brown and Marty McFly have teamed up to company working on a way to get a replacement for the Delorean. Evidently the 1.21 gigawatts from the clock tower lightening strike was too much and Dr Brown is stranded in the past. I'm working on a special project to get him Back to the Future.
